

Oceanside Gymnastics Families,

I wanted to take this opportunity to address everyone's concern and share Oceanside Gymnastics action plan during this period of heightened concern. Like many of you, Oceanside Gymnastics is closely monitoring the [Center for Disease Control \(CDC\)](#), [World Health Organization \(WHO\)](#), [San Diego County](#), and other sources regarding the coronavirus (COVID-19). As new information becomes available, we will update our policies and procedures for the continued safety of our athletes, families, staff and community.

Oceanside Gymnastics will remain open for gymnastics classes. All extra activities during the month of March have been placed on hold. We have increased the cleaning and sanitizing of our facility and equipment and are providing increased opportunities for athletes and staff to follow the recommended practices of additional hand washing and sanitizing. In the same manner that we have asked our employees to stay home if they are not feeling well, we would kindly ask that you keep your child home from gym if they are not feeling well, have a cough or are displaying any flu like symptoms. Additionally, we have temporarily shut down all community drinking fountains and ask that you bring a full bottle of water to class. We will continue to monitor the situation and keep you updated with any changes to our program.

Children often fear the unknown. While change is a learning opportunity, it can also be stressful. Continuing your normal routine brings comfort and consistency to a child's life and will help establish normalcy and a sense of security.

In light of all that is going on in the community, we are temporarily modifying our make-up policy so that you can hold your spot in class.

A few reasons we recommend holding your space in class:

- A. You have selected the class day/time that fit your families schedule. We cannot guarantee a class day/time once it has been dropped. Re-enrollment is based on class availability.
- B. 2020 is an Olympic year and we are looking for another Gold Medal from Team USA. This means an increase in demand for gymnastics classes.
- C. Class continuity facilitates learning. Your child has developed friendships with classmates and built a relationship with their teacher.

The safety of our families, staff, and the community is and always will be our top priority. We look forward to continuing to serve our community.

Thank you for being a part of our Oceanside Gymnastics family,

Reevon Bryan
